

NMSHS Third Party Services Information Sheet

The use of web-based learning resources and cloud-based storage are used across Department of Education schools to enhance contemporary learning opportunities available to students as well as streamline administrative processes. Teachers make decisions about the best technology to meet the needs of their students. Types of services provided by third parties include online content creation, collaborative tools, online educational games and adaptive quizzes and online assessment.

Newton Moore Senior High School wishes to register a range of web-based service providers, which are listed below. Registering with these providers requires access to some personal information to support the setting up of accounts. Personal information relating to both students and parents can include Student Name, age, year group, gender, email address, teacher and class identification and parent contact information. In the case of administrative tools, it may also include student health information and parental address.

To ensure we comply with the Commonwealth Privacy Act (1988) we need to seek permission for the use of these sites and providers. It is important that you understand the reasons that these websites collect this information, what it is used for and who else may have access to it. For each of the third parties that the school intends to use, we have included this information and a link to their privacy policy and/or their terms and conditions. Please read these and ensure you understand the implications of using this service before giving your consent.

Please note that while every reasonable effort is made by schools and the Department to prevent student exposure to inappropriate online content when using Department provided online services, it is not possible to completely eliminate the risk of such exposure.

You should be aware that the Department has the right to review, audit, intercept, access and disclose messages created, received or sent over Department online services. Logs of email transactions and internet access data are kept for administrative, legal and security purposes and may be monitored. Similar to other corporate records, emails and internet access records are discoverable in the event of legal action and are subject to provisions of the Freedom of Information Act 1992. ([OIC Home Page](#))

You should also be aware that general internet browsing not conducted via the Department's network is not monitored or filtered by the Department. The Department encourages close family supervision of all internet use by children in locations other than school, and strongly recommends the use of appropriate internet filtering software. Advice on managing internet use at home can found on the Office of the E-Safety Commissioner website [Online safety | eSafety Commissioner](#)

If you consent your child having access to any or all of the listed providers, please complete and sign the consent form within the "Student Enrolment Form".

No consent required

Please note that no parent action is required for these applications. We are required to inform you of the use of these services, but you are not required to consent.

PAT (ACER)

[Home - PAT - ACER](#)

No consent required.

How the information is used:

Tests to provide objective, norm-referenced information about students' skills and understandings in a range of key areas.

Information provided:
